Education

Software Engineering (RPL)

SMK Telkom Purwokerto

2024 – Present | Expected Graduation: 2027

Skills

>> Languages & Frameworks

- PHP 8.2+ & Laravel 12 (MVC Architecture)
- JavaScript (ES6+) & Tailwind CSS
- Android SDK (XML) & C# / Unity

>> Database & Security

- MySQL Database (Relational Schema & Query Optimization)
- Application Security (Bcrypt Hashing, CSRF Protection, Input Sanitization)
- API Security & Authentication (Token-based Auth & RESTful APIs)

>> Tools & Testing Practices

- Postman (API Testing & QA Verification)
- Git & GitHub Version Control
- Figma (Wireframing & UI/UX Prototyping)

MEZZALUNA AZZAFIRA

FULL-STACK DEVELOPER / SECURE APPLICATION INTERN

About me

Software Engineering student at SMK Telkom Purwokerto specializing in full-stack web, native mobile development, and application security. Experienced in building scalable backend systems with Laravel 12 and native Android applications using REST APIs. Passionate about clean code, secure coding practices (OWASP Top 10), and building resilient digital platforms. Available for Internship: Dec 7, 2026 – Apr 16, 2027.

Featured Projects

MotherChild.AI — Predictive Health Platform (Aug 2026)

motherchild-ai.vercel.app

- Built an AI-powered health portal for early stunting detection and pregnancy risk analysis.
- Integrated Machine Learning models with a Laravel 12 backend and responsive Tailwind CSS UI.
- Security Highlight: Implemented secure user authentication, password hashing (Bcrypt), CSRF protection, and encrypted data handling.

Neatify — On-Demand Laundry Mobile App (2026)

github.com/mezzaluna-azzafira/Neatify-AndroidView

- Developed a native Android application connected to a Laravel backend via RESTful APIs.
- Implemented core features including Secure Auth System, Real-Time Order Tracking, automated Cost Estimation, and WhatsApp Direct Chat API.
- Security Highlight: Ensured API endpoint security, token-based authorization, and input sanitization to prevent injection vulnerabilities.

Lentera Edukasi — Academic Publishing Platform (2025 – 2026)

lenteraedukasi.vercel.app

- Designed and deployed a full-stack web application featuring an automated print-cost simulation calculator and manuscript tracking system using Laravel 12 and MySQL.
- Applied secure database query practices (Eloquent ORM) to mitigate SQL Injection risks.

Certifications

- AI Ready ASEAN — Youth Program | ASEAN Foundation x Google.org (Sep 2026) (12-Hour Program: Data Privacy, AI Safety & Ethical AI Implementation)
- Azure AI Fundamentals (AI-900) Prep | Microsoft x KOMDIGI & ElevAlte (Jul 2025)
- AI Ignition Training (30 JP) | KUMPUL.ID x Google.org & Asian Development Bank (Aug 2026)
- DevOps: Practical Web Hosting | Dilesin Academy (Mar 2026)
