

MEZZALUNA AZZAFIRA

FULL-STACK DEVELOPER /
ANDROID DEVELOPER

About me

Software Engineering student at SMK Telkom Purwokerto specializing in full-stack web and native mobile development. Experienced in building scalable backend systems with Laravel 12 and native Android applications using Android Studio and REST APIs. Passionate about clean code, web security, and delivering seamless user experiences.

Available for Software Engineering Internship: Dec 7, 2026 – Apr 16, 2027.

Featured Projects

MotherChild.AI — Predictive Health Platform (Aug 2026)

motherchild-ai.vercel.app

- Built an AI-powered health portal for early stunting detection and pregnancy risk analysis.
- Integrated Machine Learning models with a Laravel 12 backend and responsive Tailwind CSS UI.

Neatify — On-Demand Laundry Mobile App (2026)

github.com/mezzaluna-azzafira/Neatify-AndroidView

- Developed a native Android application connected to a Laravel backend via RESTful APIs.
- Implemented core features including Auth System, Real-Time Order Tracking, automated Cost Estimation, and WhatsApp Direct Chat API.

Lentera Edukasi — Academic Publishing Platform (2025 – 2026)

lenteraedukasi.vercel.app

- Designed and deployed a full-stack web application featuring an automated print-cost simulation calculator and manuscript tracking system using Laravel 12 and MySQL.

Certifications

- AI Ignition Training — KUMPUL.ID x Google.org & ADB (Aug 2026)
- Azure AI Fundamentals (AI-900) — Microsoft x ElevAlte & KOMDIGI (Jul 2025)
- DevOps: Practical Web Hosting — Dilesin Academy (Mar 2026)
- Digital Marketing Certification — Telkom Indonesia (DigiUp) (Dec 2025)
